

Playfully Smart products for the play spaces at home!

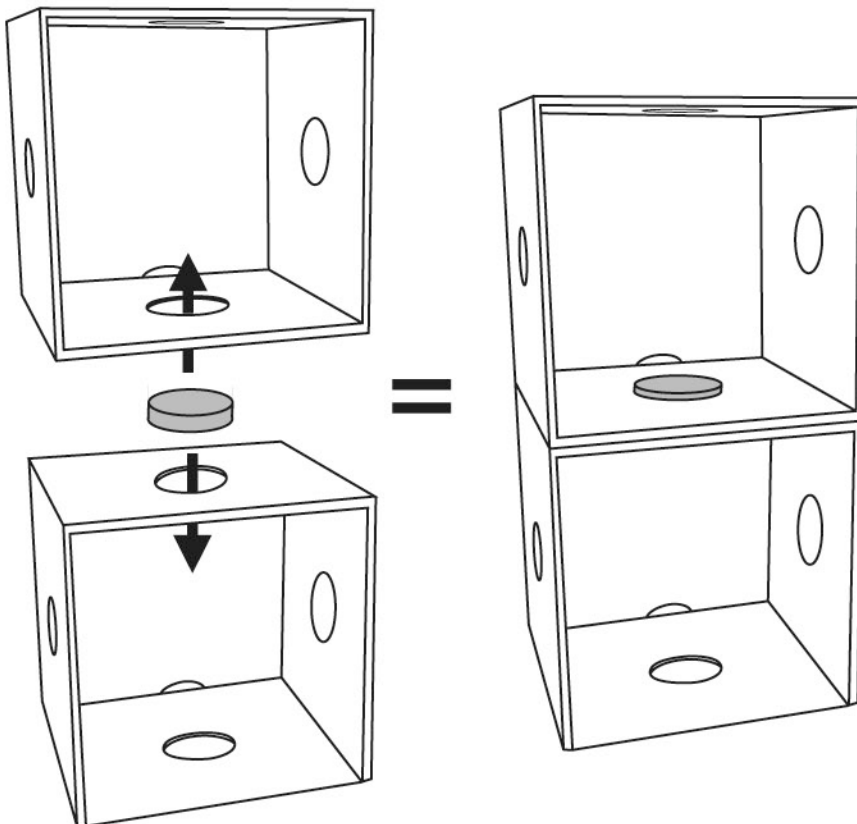

## P'kolino Kubes

Thank you for choosing the P'kolino Kubes!

The P'kolino Storage Kubes are modular, so you can configure to your needs, and multi-functional, so you can use them as shelves, bins and containers. These stylish wood pieces match other P'kolino products and can be accented with several colors to complement your home decor.

Each of these Kubes has plenty of room for whatever you may need to organize. You can even fit 3 P'kolino Play Kits or use the Kube Drawers to store everything away. We created this modular storage system so you can configure them to meet your needs. Each P'kolino Kube is a perfect cube so that it can be oriented in any direction and still maintain the set's symmetrical lines.

### Using Your P'kolino Kubes

#### Connect the Dots

The circular holes on each Kube are more than a funky aesthetic. With the help of the foam "Dots" (the circular foam discs included in your shipment) these holes actually secure the Kubes when stacked or positioned side-by-side.

#### How it Works

Place Kubes side-by-side, or on top of one another, aligning the holes. Insert a "Dot" into the hole until it is flush with the Kube on both sides. Connectors should be checked periodically to ensure they are secured as frequent movement may loosen them. **DO NOT CLIMB IN OR ON KUBES.**
